## MEMORANDUM FOR THE RECORD

SUBJECT: Briefing on Narcotics Information Guidelines

25X1 1. Betsy Keyes, Office of Technology Assessment, was  
25X1 briefed by Bill Kotapish, NIO/NARC in 7E62 Headquarters at  
25X1 3:30p.m. on 16 October along with [redacted]  
[redacted] CPAS. Briefing lasted one hour and 15  
minutes.

2. The briefing covered the key safeguards instituted in protecting narcotics related information and the legal protectors that are in place to maintain these safeguards. Pat Kimble started off by giving a short history on how the DOJ guidelines were established. Based on her research, Keyes thought that protection of information was nearly non-existent. It was explained to her that CIA deals with equivalent level intelligence officers at other agencies and, therefore, there are usually few problems for us.

25X1 3. Keyes thought the briefing was informative. She said that there would be three versions of the report, "The Border War on Drugs"; unclassified, official use only, and classified. There is no mention of CIA in the first two versions.

[redacted]
